

FINNGULF 43

BEAUTY THAT PERFORMS LIKE A BEAST

The Finngulf 43 is a remarkably fast performance cruiser that offers speed, comfort and elegance. This yacht by Farr Yacht Design is equally at home racing around the buoys or blue water cruising. Each individual vessel is hand crafted, developed with modern thinking in a harmonious blend of classic lines and blistering performance. All hulls and decks are infused epoxy laminate and hand built composite interiors are available in a variety of customized options.

ELEGANCE AND VERSATILITY

“The Finngulf 43 successfully merges the needs and desires of the racer and the cruiser into an elegant, distinctive package with impressive performance and exceptional comfort.”

Jim Schmicker, Senior Naval Architect, Farr Yacht Design

CLASSIC LINES, UNCOMPROMISED SPEED

The design brief: "Create a very fast Performance Yacht, one that is clearly faster in all conditions than the current models, whilst retaining the classic lines and without compromising handling and comfort below deck."
